SUMMARY

Experienced and detail-oriented Senior PHP Developer with 9 years of expertise in designing, developing, and optimizing scalable web applications using PHP, Laravel, and CodeIgniter. Adept at architecting secure, high-performance solutions, managing databases (MySQL, PostgreSQL), and deploying cloud-based infrastructure on AWS (EC2, S3). Skilled in API development, third-party integrations, and system optimization to enhance performance and efficiency. Proficient in Git for version control and well-versed in Agile methodologies for efficient project execution. Strong advocate of clean coding practices, security compliance, and performance optimization. Experienced in mentoring junior developers and collaborating with cross-functional teams to drive innovation and business growth.

EXPERIENCE

Senior PHP Developer10/2015 - Present

Zinbay India Pvt Ltd ↗

- Develop & Optimize: Architect, develop, and maintain scalable web applications using PHP (Laravel, CodeIgniter) while ensuring high performance and security.
- Database Management: Design and optimize MySQL & PostgreSQL schemas, write efficient SQL queries, and enhance database performance.
- API Development & Integration: Build and integrate RESTful APIs, third-party services, and payment gateways to enhance application functionality.
- Cloud & DevOps: Deploy and manage applications on AWS (EC2, S3), ensuring uptime, scalability, and security best practices.
- Version Control & Agile: Maintain clean, version-controlled code using Git, and collaborate effectively using Agile methodologies for sprint-based development.
- Security & Performance Optimization: Implement secure authentication, encryption techniques, and performance optimizations to enhance system efficiency.
- Leadership & Collaboration: Mentor junior developers, conduct code reviews, and collaborate with cross-functional teams to drive project success.

Major Projects at Zinbay India Pvt Ltd04/2024 - 01/2025

ZimpLHR – Human Resource Management System (HRMS) ↗

ZimpLHRM is a comprehensive HR management platform that automates payroll, attendance tracking, and employee lifecycle management. It features real-time payroll processing, secure role-based access, and seamless third-party integrations for accounting and benefits management. Designed for scalability and compliance, it ensures efficient HR operations with high security and automation.

- Tools Used: Laravel (PHP), MySQL, AWS (EC2, S3, ECS), Git, Agile Methodologies
- Role: Senior PHP Developer

ZimpLeads – Advanced Real Estate Lead Generation & CRM ↗01/2023 - 02/2024

ZimpLeads is a high-performance CRM built to help real estate professionals track, manage, and convert leads efficiently. It offers customizable lead pipelines, automated follow-ups, and real-time analytics, enabling agents to make data-driven decisions. With seamless API integrations for property listings, marketing tools, and payment gateways, the platform enhances workflow automation and client engagement. Designed for scalability and security, it ensures data integrity, high availability, and streamlined operations.

- Tools Used: Laravel (PHP), MySQL, AWS (EC2, S3, ECS), Git, Agile Methodologies
- Role: Senior PHP Developer

BoldLeads is a scalable CRM and lead generation platform that streamlines lead capture, nurturing, and conversions for real estate professionals. It features automated follow-ups, seamless API integrations, and high-performance data processing to handle large transaction volumes. Built with scalability and security in mind, it ensures reliability, data protection, and efficiency for real estate businesses.

- Tools Used: Laravel (PHP), MySQL, AWS (EC2, S3, ECS), Git, Agile Methodologies
- Role : Senior PHP Developer

EDUCATION

Bachelor of Technology (B.Tech) in Electronics and Communication Engineering

03/2009 - 03/2013

College of Engineering Cherthala, Alappuzha, Kerala, India

SKILLS

Backend: PHP (Laravel, CodeIgniter), REST API

Cloud & DevOps: AWS, Git, Agile Methodologies

Frontend: JavaScript, jQuery, HTML5, CSS3

WordPress , Joomla

Database: MySQL, PostgreSQL
