📍 Ernakulam, Kerala, India

SUMMARY

Senior PHP Developer with 9 years of experience designing, developing, and optimizing scalable web applications using PHP (Laravel, Core PHP, CodeIgniter). Proficient in REST APIs, JWT, OAuth2, and third-party API integrations. Skilled in MySQL and PostgreSQL database management, including schema design and query optimization. Experienced in deploying and managing cloud infrastructure on AWS (EC2, S3). Well-versed in Git/GitHub, Agile methodology, OOP, MVC architecture, and secure coding standards (PSR). Adept at mentoring junior developers and collaborating with cross-functional teams to deliver high-quality, secure, and scalable software solutions.

EXPERIENCE

Senior PHP Developer   08/2019 - Present
Zinbay India Pvt Ltd

- Develop & Optimize: Architect, develop, and maintain scalable web applications using PHP (Laravel, CodeIgniter, Core PHP) while ensuring high performance and security.
- Database Management: Design and optimize MySQL & PostgreSQL schemas, write efficient SQL queries, and enhance database performance.
- API Development & Integration: Build and integrate RESTful APIs, third-party services, and payment gateways to enhance application functionality.
- Cloud & DevOps: Deploy and manage applications on AWS (EC2, S3), ensuring uptime, scalability, and security best practices.
- Version Control & Agile: Maintain clean, version-controlled code using Git, and collaborate effectively using Agile methodologies for sprint-based development.
- Security & Performance Optimization: Implement secure authentication, encryption techniques, and performance optimizations to enhance system efficiency.
- Leadership & Collaboration: Mentor junior developers, conduct code reviews, and collaborate with cross-functional teams to drive project success.

Senior PHP Developer   10/2015 - 07/2019
JJSoft Technologies

- Web Application Development: Built and maintained dynamic applications using Laravel, CodeIgniter, and Core PHP, ensuring robust functionality and clean architecture.
- Requirement Analysis & Implementation: Collaborated with stakeholders to gather requirements, converted them into technical specifications, and implemented features aligned with business goals.
- Database Design & Optimization: Designed scalable MySQL/PostgreSQL schemas, optimized queries, and implemented indexing strategies for high-performance data access.
- API Development & System Integration: Created and consumed REST APIs, integrated third-party services, and enabled smooth data exchange across platforms.
- Cloud & Deployment: Managed application hosting on AWS (EC2, S3), automated deployments, and monitored system performance for scalability and uptime.
- Agile Development: Worked in Agile/Scrum teams, participated in sprint planning, code reviews, and collaborative problem-solving.
- Security & Performance: Applied secure coding practices, authentication mechanisms to deliver stable applications.
- Team Collaboration: Coordinated with designers, testers, and product teams, while also mentoring junior developers on best practices and coding standards

EDUCATION

Bachelor of Technology (B.Tech) in Electronics and Communication Engineering   03/2009 - 03/2013
College of Engineering Cherthala, Alappuzha, Kerala, India

SKILLS

Frontend Development : JavaScript, jQuery, HTML5, CSS3, AJAX

Backend Development : PHP (Laravel, Core PHP, CodeIgniter), OOP, REST APIs

Cloud & DevOps: AWS (EC2, S3), Git, GitHub, Version Control, Agile Methodology

API Development & Integrations : REST APIs, JWT, OAuth2, Third-Party APIs, Payment Gateways, Postman

Database Management : MySQL, PostgreSQL, Schema Design, Query Optimization

CMS & Web Platforms: WordPress, Joomla
